

2020/2021 Atomic Team Offerings - Latitude 44 Sports

Skate Skis

[Redster S7](#)- A great ski for aspiring racers, made in the same mold and Austrian racing ski factory as the top C9 Carbon, with a V-Shape sidecut for speed and edging. Race Carbon construction, Speedcell core, and BI500+ Base with World Cup grinding. Medium or Hard flexes to aid fitting.

[Redster S5](#)- Similar Speedcell and Race Carbon construction to the S7, but a more stability oriented (straighter, wider) shape made in Atomic's Bulgaria factory. BI4000 Base with Race Grind.

[Redster S5 Junior](#)- A great ski for the youngsters to learn and develop on, with a traditional sidecut, Densloite core, and BI3000 base. Sizes for kids up to about 100lbs.

Skate Boots

[Redster S7](#)- Composite injected chassis, Race fit, and a split cuff that provides stability without while still working with natural alignment.

[Pro S2](#)- Sport fit, softer materials, split cuff, - but still a performance-oriented skate boot that's not overbuilt.

[Pro CS](#)- Adult combi boot with S2 construction and features, but a classic flex at the toe box.

[Redster WC Jr Pursuit](#) - Junior Combi boot focused on support and comfort.

Classic: Kick-Wax Skis

[Redster C8](#) - Waxable classic ski from the mold of the top-shelf C9 Carbon, BI500 Special Additive base with WC Grind, elastic Powercell core, straight 44 sidecut for speed in the track. Soft, Medium, or Hard flexes for a good fit. (note that the link is to the C7 - the C8 is a special US model with features combining the C7 and C9)

[Pro C2](#) -Perfect for learning classic technique on kick wax! UH Densolite Core, straight 45mm sidecut, BI4000 base.

[Redster C9 Junior](#) -A Waxable Junior racing ski made in our Austrian racing ski factory, with a Speedcell core, and BI5000 base with WC grinding.

Classic: No Wax - Skin Skis

[Pro C3 Skintec](#)- A great training and “everyday” classic skin ski, with features borrowed from our top models. PSP Shift adjustable bindings, interchangeable skins, BI5000 WC Base, and SDS Sidewalls.

[Redster C7 Skintec Junior](#) - A great ski to learn classic technique on without the frustrations of waxing in the PNW climate.

Classic Boots:

[Redster C7 Classic](#)- Light, low cut classic boot with Race Fit and good torsional stiffness for ski control at speed.

[Pro C1 Classic](#) - Supple classic boot with extra warmth and support for learning classic technique.

Poles

[Pro Carbon QRS](#) - Carbon Composite shaft, Quick Release Strap

[Pro Jr](#) - Reliable Alloy pole with a simple loop strap

Bindings:

All are Prolink for Atomic Pre-drilled skis.

(Prolink bindings are compatible with Prolink , NNN, and Turnamic boots)

[Prolink Pro Skate](#)

[Prolink Pro Classic](#)

[Prolink Shift Pro \(required for PSP Plate on Skintec skis like Pro C3\)](#)

[Prolink Race Jr Classic](#)

[Prolink Race Jr Skate](#)

[Prolink Access Jr](#)
